

Energy & Water Procurement initiative

Calderdale Current is an energy procurement initiative for Calderdale enterprises operated by Hawley Energy. It gives organisation full control and the opportunity to invest back into our local community.

Calderdale Current is a new scheme that has set out to help businesses choose how they power our future. Those who opt in, contribute 0.5p/kWh to a community fund, whilst Hawley Energy donates £100 for every business that opts out but still signs up to take energy through the initiative. The fund fuels climate positive projects that meet guidelines set by Calderdale's *Climate Action Panel*, turning energy into impact. All Grants are managed by **Community Foundation for Calderdale**.

Energy Procurement

Achieve competitive rates for energy & water and opt in/out of a small kWh donation.

- ✓ Competitive Rates
- ✓ Flexible Purchasing
- ✓ Investing in Calderdale

helping organisations like yours thrive sustainably

WHO WE ARE

Supported by the Climate Action Partnership

The Climate Action Partnership is a joint initiative by Calderdale Council, local business and voluntary organisations. Its aim is to reduce carbon emissions in Calderdale and build a modern, sustainable Calderdale. Calderdale Current, a brand-new venture that aims to reduce energy prices for local businesses and support wider climate action, has the support of the Partnership.

WHAT WE DO

Simplified Procurement

Just sign up to buy gas and electricity through us and you'll automatically qualify for a grant.

Stronger Together

We believe that working together, we can reduce our shared costs and make a difference in our community.

Drives Local Impact

Funds are spent exclusively in Calderdale to help our region meet the commitments made amidst the ongoing climate emergency.

Boost Your Reputation

Participating organisations demonstrate their commitment to our community, the environment, climate leadership and ongoing investment in our community.
